Save me, take me away to the moonlight
The people around me don't feel right
What are we doing here?
Save me, take me away from the action
For you are the only attraction
Take me away from here

The party's on and one by one the cars arrive and the
people come
And I wonder if there will be anybody here alone
Another married guy tries to catch my eye
Should I smile or should I sigh?
Then you walked through the door and I saw that you
were all on your own
Save me, take me away to the moonlight
The people around me don't feel right
What are we doing here?
Come on and save me, let's get away from the action
For you are the only attraction
Take me away from here

We slipped away without a single word
No one saw and no one heard
'Cos we both agreed that I just wasn't worth it to stay
I went cold and hot, should I go or not?
You grabbed my hand and I couldn't stop
And I laughed and you smiled as we left and drove
away
Save me, take me away to the moonlight
The people around me don't feel right
What are we doing here?
Come on and save me, let's get away from the action
For you are the only attraction
Take me away from here

Starlit sky, moon on high, sure feels good to me
And in my bones I've always known this is how it's
meant to be
Save me, take me away to the moonlight
The people around me don't feel right
What are we doing here?
Save me, let's get away from the action

For you are the only attraction
Take me away from here
Save me, take me away to the moonlight
The people around me don't feel right
What are we doing here?
Save me, let's get away from the action
For you are the only attraction
