All alone in you're little room,
Tonight you're not safe in your bed.
You'll find me where the shadows loom
I've a hunger and it must be fed.

Cold blooded mentality,
Two-way Gemini.
My dark side gets the better of me,
The evil is rising inside.

Jekyll and Hyde.
Calling Dr Jekyll,
Meet Mr Hyde!

Got a split personality
When night begins to fall.
Can't fight this insanity,
The beast within us all.

Transformation changes my face,
Visions twist my mind.
They seek a killer,
But in my place,
Another stands behind.

Woman child you are the victim,
Of my inner battle for survival.
