Never pay no heed to those who oppose my lifestyle  
Feel no remorse for the wrong that I've done  
I constantly abuse all who try to use me  
Like a fallen angel banished from the sun

[Chorus:]

Cause I'm the Night Stalker, feel the cold caress of  
knife  
Stealthily advancing to cut out your life  
Yeah the Night Stalker, assassin at your back  
Skulking in the shadows poised for attack

Prowling these streets at night,  
I fight a deadly game of survival  
Stealing through the concrete jungle with bloodlust in  
my brain  
All here fear me I'm ruthless as I'm godless  
A predator of the side walk in his alley-way domain

[Chorus]

Society brands me a homicidal madman,  
But they cannot cage what they cannot see  
When I'm coming you as good as a dead man  
Ain't no one alive that can elude me
