The Storm won't last forever (won't last forever, girl)
The Storm won't last forever (ooh, someday the sun
gonna shine)
You know that when the sun comes (we gonna be
together)
The Storm will blow away (will blow away, some sunny
day)

I was standing out there in disgrace
My head couldn't hang no further down
I can still see the drops of rain on your face
As you turn from me without a sound

And I can't blame you for a-throwing me out after what I
did to you
But the wind is cold, blowing through my soul, I got to
get back to you (yeah)

The Storm won't last forever (won't last forever, no)
The Storm won't last forever ('cause we gonna be
together)

Ooh, so when the night wind blows and blows
Are you with somebody else or do you lie there all
alone?

Well I don't know just what to expect as I walk this last
stormy mile

You got to free this storm in me with the sunshine in
your smile

The Storm won't last forever (keep on searching till I
see the sun)
The Storm won't last forever (I gotta find you, 'cause
you're the one)
You know that when the sun comes (I keep a-coming
your way through the night and day)
The Storm will blow away (somewhere, some way,
some how today)

The Storm won't last forever (whatever, no never,

forever)

The Storm won't last forever ('cause we gonna be
together)

Let me tell you the storm (won't last forever)

Hey, Ho, The Storm (won't last forever, no)

Hey, Ho, The Storm (won't last forever, no)

Hey, Ho, The Storm (won't last forever, no)

The Storm (won't last forever, no)

The Storm (won't last forever, no)

etc.
