

Clownage "Change"

Visit "[Change](#)" on MotoLyrics.com

You were alone
You were afraid
You thought you'd die
But you'r still there

We made our time
The best we could
We tried to hide
Beneath the stars
The secret side
Which burned inside

But you made me change
And you made me change
All the things i couldn't face
You helped me you saved me from myself

You'll start again
With someone esle
You'll find your way
So don't regret

We made our time
The best we could
We tried to hide
Beneath the stars
The secret side
Which burned inside

But you made me change
And you made me change
All the things i couldn't face
You helped me you saved me from myself

Run away from me
I couldn't be the one you need
