"Better Days"

Visit "[Better Days](#)" on MotoLyrics.com

now that i'm alone again
after all these years
of having someone to share my thoughts with
simplicity is gone my friend
i thought it'd be a good thing
but now i know
i need someone everyday
something in the same way

still i hope for better days to come
you made up your mind
but maybe i can change it back again
you tell me give it time my friend
you think i just someone
but i need you
just a moment everyday
and i can't see it changing
