### "Boyfriends Stay"

you say you win  
but i think you've lost this time  
you lost your mind  
somewhere along the way

you know i write  
i write some stories from time to time  
it's nothing that you  
couldn't see through

girlfriends go  
and boyfriends stay  
so get yourself together

so will we learn  
and do it right next time  
we'll give it up  
when we can't work it out

girlfriends go  
and boyfriends stay  
so get yourself together

sometimes i believe  
you're going to save my soul  
something is for real  
something is for real  
yes, so i'm told

girlfriends go  
and boyfriends stay  
so get yourself together
