"I Have No Better Plan"

Visit "[I Have No Better Plan](#)" on MotoLyrics.com

it started with a whisper
growing louder
growing into my head
and the voices
telling me how
and why

if i had a second chance
there'd be no better plan
to it all
if i shall comprehend
you need to put your sense
into a song
take me to the end

i'll follow in those footsteps
make a difference
and compensate the time
i'm giving into
every word
every line

if i had a secondnd chance
there'd be no better plan
to it all
if i shall comprehend
you need to put your sense
into a song
take me to the end

so go on wondering
this ain't goodbye
you got it so wrong
well, i hope it's wrong
if we're to make mistakes
it's something we must show
so put it on paper
and write another song
