"She Lives By The Water"

Visit "[She Lives By The Water](#)" on MotoLyrics.com

She lives by the water
Not so far from me
I sometimes go and see her
I know she's there for me

She's something for the longing
And I know where she belongs
She's got a place in my heart
While lovers come and go

Was it easy
Was it hard
Not to be a part of it all
When you changed
They said you were strange

She lives by the water
Not so far from me
I sometimes go and see her
I know she's there for me

Was it easy
Was it hard
Not to be a part of it all
When you changed
They said you were strange

Give in
Or give up
They say that it's hard and
She says it's difficult
To stop once you've started
