"She Never Calls Me"

Visit "[She Never Calls Me](#)" on MotoLyrics.com

there's a girl i know
she used to love me very much
now i'm not so sure
she's going out with her boyfriend

i always dream of her at night
(woh-ow-woh-ow-woh-ow-woh)
i want her to notice me again
(won't you look at me)

i know that you would like to
so now i ask you please do

chorus
tell me the truth now
is it going to be you and me
tell me the truth now
would you like to go to the sea

there's a girl i know
she never calld me anymore
she is much cooler now
she's going out with all the right friends

do you ever think of me
(woh-ow-woh-ow-woh-ow-woh)
i can hardly wait to see
you again

chorus
tell me the truth now
is it going to be you and me
tell me the truth now
would you like to go to the sea
