"Someday"

Visit "[Someday](#)" on MotoLyrics.com

though i wish i'll be happy someday
the thoughts can not take all my time

chorus
this is not what i was thinking
but it's everything that i need here and now
no it's not what i was thinking
but it's everything that i need here and now

my days are seldom how i plan them
and somehow i'll have to live with that

chorus
this is not what i was thinking
but it's everything that i need here and now
no it's not what i was thinking
but it's everything that i need here and now

please understand the things i say
you're gonna be like me someday

chorus
this is not what i was thinking
but it's everything that i need here and now
no it's not what i was thinking
but it's everything that i need here and now
