"Summer Rain"

Visit "[Summer Rain](#)" on MotoLyrics.com

there's always this summer rain
falling down on me
in the winter time we stayed outside
until the dawn

all that i have done
i do it over again
i wish that i was special

chorus
it's just another copy
of a boy i used to know
yes he's just another copy
with brand new shoes
and the latest haircut

a long walk to the seashore
and watch the sun go down
it doesn't thrill me in the way it did
when i was seventeen

all that i have done
i do it over again
i wish that i was special

chorus
it's just another copy
of a boy i used to know
yes he's just another copy
with brand new shoes
and the latest haircut

i know it's not for me
this isn't nearly what i need

i know it's not for me
this isn't nearly what i need
i start to wonder what you see
is it me
