"The Girl With The Northern Soul Collection"

red headed girl
with a northern soul collection
she says she has to move
cause the money's gone
she shouldn't have to do that

if there's a desire
that could take you higher
i know you'll be there on time
don't go where your friends are
they're not where the lights are
someone's going to take you home tonight

poor trendy girl
with an inner city lifestyle
can only pay the rent
for a loser's flat
she shouldn't have to go there

why the frown?
now you're hard on yourself
club kids of the world unite
to help you now

if there's a desire
that could take you higher
i know you'll be there on time
don't go where your friends are
they're not where the lights are
someone's going to take you home tonight
