"Tomorrow Never Comes"

Visit "[Tomorrow Never Comes](#)" on MotoLyrics.com

sing me a song and i'll be happy
i want my mind far away
karen says I should be lucky
won't you please show me how

chorus
i won't think about tomorrow
(tomorrow never comes)
i won't think about the mornings
(the mornings spent alone)
i only want to be
taken care of and still be free

sing me a song and make me happy
i want to calm down for a while
lay beside me in the morning
i want your body next to mine

i know i need a friend
do i need a lover too
i want you to stay
till the end of the day

chorus
i won't think about tomorrow
(tomorrow never comes)
i won't think about the mornings
(the mornings spent alone)
i only want to be
taken care of and still be free
