"We Move In Silence"

take one step
and two steps
and then you're beside me
thinking about what we could do
the fear and the worries are all inside you
tomorrow must be out of sight
we don't have to make it right

we move in silence
tomorrow there will be no
fighting for a place in the sun
and we got our heads straight
whatever will surround us
we keep it out off our minds

the moments and hours
that we will long for
is stopping us from making sense
a word and a whisper
you come on slowly
i'm hearing what you want to say
there will be no other day

we move in silence
tomorrow there will be no
fighting for a place in the sun
and we got our heads straight
whatever will surround us
we keep it out off our minds

by doing it right now
we're not counting the time
and we won't measure
what we feel inside
