"When Lights Go Out"

Visit "[When Lights Go Out](#)" on MotoLyrics.com

did the lights go out
on you my love?
little by little
year by year

now i need a lover's hand
to guide me
make me forget things
there's no need to comprehend
just touch me
make me forget things

did it last too long
for you my love?
hoping and wishing
til it's gone

now i need a lover's hand
to guide me
make me forget things
there's no need to comprehend
just touch me
make me forget things

and most of the time
i can live with a lie
and most of the time
i will take what's in sight
and most of my days
it will do with lies
