"Walking Through Walls"

Visit "[Walking Through Walls](#)" on [MotoLyrics.com](#)

some things will never change

some things we'll never know

walking down the rocky road

down and out

with so far to go

without you on my mind

I'd never make it

without the stars in the sky

well love is love

and one is one

so I turn around

to head for the sun

and now I'm on my way

chorus

without any hope

without you on my mind

without any dreams

without the stars in the sky

without any love

there's nothing at all

so I'm on my way home

and I'm walking
walking through walls
some days just never end
some days go to slow
walking down the rocky road
down and out
with so far to go
without you on my mind
I'd never make it
without the stars in the sky
well love is love
and I lost the fight
so I turn around
and head for the light
and now I'm on my way
chorus
