now that I love you bring ...  
in a special weather only you know how  
so I am coming ..  
I'll do what ...  
.. do whatever

chorus

give me your asthma attack  
do you give ... keep coming back  
I'll save a place for ..  
no other man it's gonna .. the light  
(repeat)

long time I love you and I hate it  
I am .. seduced and asphyxiated

just like adolescents .. make sounds  
love stays the same and my feelings change day by  
day

chorus

.. forgive you are the one I lost ..  
first one I lost my heart to  
so how could I ever forget you  
(repeat)

chorus
