Hold it now, hold it now  
Hold it now, hold it now  
Hold it now, hold it now...

Whoa, oh, oh...  
Hold on tighter to love

Boy, you been taking me through changes  
Why, I'm for real  
When you need me, I'm always there  
The one you can lean on

But, baby, I'm strong  
And we can't go wrong  
I keep on and on

(CHORUS)  
Hold on tighter to love  
Hold on tighter to love, oh, oh  
Hold on tighter to love  
Hold on tighter to love, oh, oh

Now, get the chance  
See how a love can be  
A thrill by the minute  
The loving by the hour  
Truth and honesty, so

The two of us should be together  
Building a love supreme  
I promise you to leave you never  
Give you what you need, oh, oh

(CHORUS) 3X

Hold it now, hold it now  
Hold it now, hold it now  
Hold it now, hold it now...
