(ben kweller)

She lives in ether
Flies to me at night time
Makes everything better, got everything together,
She is mine

She stares in holy trance
And she really likes to fly
Gives me angelical, then we start to dance,
Purple skies

She is the angel that one day will save me
Apparition of purity

She stares in holy trance
And she really likes to fly
Gives me angelical, then we start to dance,
Purple skies

I miss her so
I will never ever let go
Not today

I miss her so
I will never ever let go
There is no way
