And finally the silence
Looking out, looking back across the sky
Trying to find a meaning
Knowing that I just left it all behind
Still I smell a lingering softness

Where did she go
How did she go
I wanna, wanna know
I wanna know that she'll be coming here to me

Come on
Without you I'll never feel the love inside of me
Come on, you know that we belong
Come on, come on, come on, come on

Thinking back before her
I never knew the meaning of alone
Still the flag is feeling foreign
Live the day to escape into a phone
Speaking of a world not real then

Where did she go
How did she go
I wanna, wanna know
I wanna know that she'll be coming here to me

Come on
Without you I'll never feel the love inside of me
Come on, you know that we belong
Come on, come on, come on, come on

'Cause each of her kisses
How my heart misses

She's coming
She's coming here to me
I'm needing, desiring to kiss her now
I'm living for her, breathing for her
Singing for her fairytale

Come on

Without you I'll never feel the love inside of me
Come on, you know that we belong
Come on, come on, come on, come on

Come on
Without you I'll never feel the love inside of me
Come on, come on, come on, come on
Come on
