I been working, one eye dollar
Bye and bye, Lord, bye and bye
I been working, one eye dollar
Bye and bye, Lord, bye and bye

I got the plans to the Oval Office
Bye and bye, Lord, bye and bye
I got the plans in my front pocket
Bye and bye, Lord, bye and bye

In the inner chambers of the President
You will find no crosses, only pentagrams
Beelzebub and business suits
On the hot line, all right

I been working, one eye dollar
Bye and bye, Lord, bye and bye
I been working, one eye dollar
Bye and bye, Lord, bye and bye
I been working like a pack mule every day

And to think that some of it ends up that way
