The killers, Scylla and the limping fool  
All the beggars play by the beggar's own rules  
On a sea of destruction  
Alright, a sea destruction

Blackest jackets of their burning books  
A lecher loves what a lecher should  
On a sea destruction  
Alright, a sea of destruction

Build your ship and sail across the sea of flame  
Leviathans will guide you into where they say  
Kings dig ditches, witches stitch in witches time  
And proper paupers are of sound body and mind

Greenest genius of the fallen fool  
All the beggars play by the beggars own rules  
On a sea of destruction  
Alright, a sea of destruction

Build your ship and sail across the sea of flame  
Leviathans will guide you into where they say  
Kings dig ditches, witches stitch in witches time  
And proper paupers are of sound body and mind
