If you ask for me
That how I'm doing,
How I take
All the think I said
Of the solitude
If I'm right or wrong
If I can laugh
Or if I can cry

And you ask for me
By curiosity
And I wanna said
That I miss you so bad
That I can't handle it more
I'll get over it
But now I don't longer know
I don't feel it no more

Because I'm not longer here
I'm death
I die the day that you leave me here just like that
I'm not longer here, I walk in the streets without
thinking
I hear without earing
I kiss without feeling
I'm the only death that can walk

Because I'm not longer here
I'm death
I die the day that you leave me here just like that
I'm not longer here, there is only exist this fuckin love
That is even bigger than the sun
That doesn't have any compassion
Don't ask for me
I'm no longer here
(I'm not longer here, I'm not longer here)

And you ask for me
By chance
If it left to shine
A conversation
Like another normal one

If I were right
Or If I was wrong
I don't care anymore

Because I'm not longer here
I'm death
I die the day that you leave me here just like that
I'm not longer here, I walk in the streets without
thinking
I hear without earing
I kiss without feeling
I'm the only death that can walk

Because I'm not longer here
I'm death
I die the day that you leave me here just like that
I'm not longer here, there is only exist this fuckin love
That is even bigger than the sun
That doesn't have any compassion
Don't ask for me
I'm no longer here
(I'm not longer here, I'm not longer here)
