If I noticed myself  
that I did'nt have to yield  
and then not falled much

But I'm still here  
thinking about what I learned  
so we can advance together

CHORUS:

Then to bad that you can't see it  
You can have me to a side  
and I'm still here thinking about you  
in everything that I gave you...  
Then to bad that you can't see it  
now you can't have no more  
and I'm still here thinking about you  
in everything that I gave you...

If I noticed myself  
that the error lets you grow,  
how many I must commit?  
tell me...

What if it's now in me,  
how close I'm from you,  
what you find here it's  
When?

CHORUS

Then to bad that you can't see it  
You can have me to a side  
and I'm still here thinking about you  
in everything that I gave you... (x 5)

I have to see to know,  
what you done to continue,  
and live with the pleasure,  
of keep lying and lying...
