Everybody's trying to be the best  
What about the girl with loneliness  
I like your sundress  
I like your sundress  
What about the girl with loneliness  
From the inside out  
You're so beautiful  
I want to hold you in my hand

I do everything you want me to  
I do everything you want me to do

I want to start going on a morning walk  
What about the days when we used to talk?  
I don't need a smile from a mannequin  
I just want to hold you in my hands  
I do everything you want me to  
I do everything you want me to  
I do everything you want me to do

From the inside out  
You've changed, girl  
You know you have  
Don't make a good thing bad  
Just let me hold you in my hands

I do everything you want me to  
I do everything you want me to do  
I do everything everything everything  
I do everything you want me to  
I do everything you want me to do  
Do do for you
