When I die I'll die with my mercy  
When she cries I'll crie with her  
In my life see I've loved an angel  
My mercy  
My mercy  
Such a glance the softest of skin  
Wax dripping so paper thin  
Remember oils positions of plenty  
Well this memory how it still haunts me  
We are love we are love  
When I die I'll die with my mercy  
And when she cries I'll cry with her  
And in my life see I've loved and angel  
My mercy eternal to me

We are love we are made of many  
We are two we are made of few  
You've taken my life and left me to blame  
You'll never understand the shame  
I would die for my mercy can't you see  
Eternally eternally  
We are love we are made of many  
We are two we are made of few  
We are made of few
