Lies deceit

It's time to watch out for number one

It's time to watch out for number one

Sleep well

It's time to watch out for number one

It's time to watch out for number one

This is unhappy, this is unhappy

So save, save your sorry, sorry self

This is unhappy, this is unhappy

So save, save your sorry, sorry self

No hope

It's time to watch out for number one

It's time to watch out for number one

Fist first

It's time to watch out for number one

It's time to watch out for number one

This is unhappy, this is unhappy

So save, save your sorry, sorry self

This is unhappy, this is unhappy

So save, save your sorry, sorry self

What would you do when I can find you?

Reach your obsession

What would you do when I can find you?

Reach your obsession

What would you do when I can find you?

Reach your obsession

Loyalty none

It's time to watch out for number one

It's time to watch out for number one

It's begun

It's time to watch out for number one

It's time to watch out for number one

This is unhappy, this is unhappy

So save, save your sorry, sorry self

This is unhappy, this is unhappy

So save, save your sorry, sorry self

What would you do when I can find you?
Reach your obsession
What would you do when I can find you?
Reach your obsession

What would you do when I can find you?
Reach your obsession
What would you do when I can find you?
Reach your obsession
