Whoa, whoa, whoa, whoa  
Whoa, whoa, whoa, whoa...

Wait a minute  
Let me understand  
While I'm sitting here  
Holding your hand

You're telling me  
About the boy next door  
Telling me that he  
Can offer you more

What a nerve, what a case  
Better put her in her place

[CHORUS]  
Wait just a minute  
You know that won't get it  
If that's the way your love will be  
You might as well forget it

Am I correct in  
Hearing what you say  
That you would rather  
Be with him instead

You said that you could  
Travel with him far  
Say he's got a  
Brand new Cadillac car

Well, what you mean, is that so  
Better let that woman go

[Repeat CHORUS]

I don't go for  
All the crazy noise  
About you dating  
All those other boys

If I'm gonna be  
Your only one  
I'm not waiting  
'Til your fun is done

You're a riot and you're tough  
Honey, cut out all that stuff

[Repeat CHORUS]

I'm gonna tell you  
For the very last time  
If I'm yours  
You better be mine

When I come home  
About a quarter to four  
Don't wanna hear the  
Slamming of the back door

You're bad and so wild  
Stop messing with me, child

[Repeat CHORUS]

You might as well forget it

Why, you can just go on  
And forget about the  
Whole cotton picking affair  
I get so tired of you...
