Hallelujah, Im so anxious  
sit and wait on life stained mattress  
static,static im ecstatic  
im the boss now i wont panic  
are you reading are you writing  
i was curle cos we were fighting  
television, handsome handshake, french hotel room  
amal nitrate

happy happy im disgusting  
watch out who you put your trust in  
build that tension lest you fix it  
thats your cue and thats my exit  
dont forgive me im not hoping  
hes in first no im not joking  
truly truly  
we see through this  
hallelujah, im still clueless

free diving  
free diving

ive been doing what i oughtta  
turing blue deep under water  
dont be humble dont be silent  
im freediving i feel violent

free diving  
free diving  
free diving  
free diving

free diving  
free diving
