"Light"

Visit "[Light](#)" on MotoLyrics.com

You are the one who brings the weather
You are a dream I've had forever
You know exactly what I'm wishing
You're gonna love me into submission

Feelings I had
While at your feet
Those kind of things
I cant repeat
You're gonna fill their world
With light

You put the point in exclamation

You took a day to build a nation
You're gonna teach me how to live
You're gonna teach me how to give

Feelings I had
Well who can say?
I cant explain them
Anyway
You're gonna fill their world
With light
You're gonna fill their world
With light
