Everything is saying eat me drink me everywhere I look  
Trying to reel in the biggest catch but I barely have a  
hook  
What's the point of speculation I want to feel it in  
my hands  
That thing that lit an ancient spark in primordial men  
Yeah  
Once upon a time I was a reptile, somewhere I still am  
I tend to act so civilized just because I can  
But what about the secret that you whispered to me  
when you were high  
When you were young the doors were open but the  
moment passed you by  
All I want is a pointless beauty everybody is trying to  
explain  
All I want is a pointless beauty  
I can't remember my name  
All I want is a pointless beauty  
So pretty we all might explain  
All I want is a pointless beauty  
That'll make me forget all that I know  
Sometimes I think I might collapse under the weight of  
my own wise  
But then I take a nap lying next to you and suddenly  
everything is fine  
I guess it's kind of like a dress rehearsal I'm  
waiting for the time  
There's a void that I'm resisting because  
I'm afraid to lose my mind  
I don't want to lose my mind  
All I want is a conversation between the two other sides  
All I want is your consummation, because I got nothing  
to hide  
All I want is a pedal to me, with the boxes full of such  
junk  
All I want is your pointless beauty, it's on the tip of  
my tongue  
It's all for nothing, every cell is telling me, it's  
all for nothing  
It's just another memory  
It's all for nothing, every cell is telling me, it's  
all for nothing

All I want is her pointless beauty, so that itâ€™s too  
much to take  
When her images pass right through me, I canâ€™t  
remember my name  
And you know that Iâ€™ll always love you, even when I  
barely was there  
All I want is her pointless, to show her how much I care.  
To show you how much I care.
