"The Finger And The Moon"

Visit "[The Finger And The Moon](#)" on MotoLyrics.com

I walk the streets with some friends of mine
Just like every time
Sit here letting time line my face
Fill this empty space
I was tired
I was unsatisfied
I was wrong, I was wrong, I was wrong
I asked you if I could come inside
When I need to hide
Wait for your love to swallow me
Please don't try to follow me
I was tired
I was uninspired
I was wrong, I was wrong, I was wrong
I walk the streets with some friends of mine
Just like every time
Sit here letting time line my face
Fill this empty space

I was tired
I was unsatisfied
I was wrong, I was wrong, I was wrong
No time like the present this
Emptiness kiss and a physical sickness
I'm falling in fear again
I know I'll never be here again
No time like the present this
Emptiness kiss and a physical sickness
I'm falling in fear again
I know I'll never be here again
I know I'll never be here again
I know I'll never be here again
I know I'll never be here again
I know I'll never be here again
I know I'll never be here again
