woke up this morning
i suddenly realized
were all in this together
i started smiling
cos you were smiling
and were all in this together
im made of atoms
youre made of atoms
and were all in this together
and long division
just doesnt matter
cos were all in this together

i saw you walking
in the city
were all in this together
the city's changing
cos we are changing
and were all in this together
every twelve seconds
someone remembers
that were all in this together
in the kitchen
of your rent-control apartment
were all in this together

cmon baby
i dont mean to rush you
i only wanted to reach out and touch you
ive gotta start to open my heart

i know you think
about jumping ship before it sinks
but were all in this together
ask a scientist
its quantum physics
were all in this together
and on the subway
we feel like strangers
but were all in this together
yeah i love you and you love her
and she loves him

but were all in this together

yknow baby
theres never been protection
in all the history of human connection
cmon darling
its alright to show me
you dont ever need to be lonely
once you start to open your heart

i saw you crying
i started crying
cos were all in this together

and then religion
its a big decision
but were all in this together

were all in this together
