"I Found The Ocean Spray"

Visit "[I Found The Ocean Spray](#)" on MotoLyrics.com

With a full harvest moon
Waves are crashing in tune
The sound makes you alright
You can sit on a stone
With good friends or alone
Until the next daylight
That's how you know your alive
Someday we'll find a way
We'll get back to the shore
Someday we'll find a way we'll...
We fade with the night
And we melt with the day
I found,
I found the ocean spray
The water's more black than blue
No, I never knew
That it's more or less inside
Yeah, I'll keep on smiling
I really think that it's working
So tell yourself that everything is fine

And that's how you know your alive
And sometimes we get tired
And just like the fire
We'll feed it before it dies
And soon we'll go home
To that place that we know
We have never been so wrong
After we were so right
And that's how you know you're alive
Someday we'll find a way
We'll get back to the shore
Someday we'll find a way we'll
And we fade with the night
And we melt with the day
And I found,
I found the ocean spray
I found the ocean spray
I found the ocean spray
