"Exponential Times"

Visit "[Exponential Times](#)" on MotoLyrics.com

The golden age is never coming back
Getting out was not part of the plan
You are just a victim of an older time
Falling behind in exponential times

Welcome to the rest of the world
We've been watching and waiting
Everything is money and we spent the last time
Battle in exponential times

Water is next

Water is the next
Thing you took for granted
To be
Battle
Inside your mind
Fought the battle
Don't fall behind
In exponential times

Water is next
