Didn't know that I was like this
Didn't know that you would care
That it would make you wanna throw punches in the air
But something happens every time we get a little closer
It makes you wanna run way or causes such a fuss
If I could drop you off and take the next bus
Suspicious of the bridges as we drive into town
Cause we would've burned the bridges down

And now you know I know how I roll
And should be taken out
Am I so out of control
Now you know

Every time you've had enough you put The Buzzcocks
on
Sing 'What Do I Get'
So I just sing along
To have you fallen for someone you shouldn't have
And is that what you're trying to say to me

And now you know I know how I roll
And should be taken out
Am I so out of control
Now you know

Insecurities and habits we should both be over
We'd get over them if we knew how
How can we talk using words like forever
If it's always forever now

And now you say you know I know how I roll
And should be taken out
Am I so out of control
Now you see how I am
And these things I like to do
Are things that you can't stand
Now you know
