No action, no voice
you might be better off, man
if you had no choice

quiere la dictadura que te hagas callar
que no hagas mas que eso
pero hay que participar
y si te viene la oportunidad
para arreglar esta sociedad (agarrala)
todos tenemos la oportunidad
para arreglar esta sociedad

I know we're all part of the problem
the sooner you admit it the better we'll be
don't wait for a government mandate
take control and be a part of the solution
(take responsibility y agarrala)
