Times can change
And the world can say that we're all the same
Fuck it I don't care
With cheap champagne we're going down in flames,
hey!

Oh I'm ready for it, come on bring it! (x4)

Hear now it's the time to shout out
Cause we know I'm about to spell it out for you
My god whatcha itching for now?
I said oh I'm ready for it come on bring it

It's time to change
I've got some many ways to get my pockets paid
But you know I don't care at all
Watch the hordes parade I sing enough to say hey

Oh I'm ready for it, come on bring it! (x4)

Hear now it's the time to shout out
Cause we know I'm about to spell it out for you

My god whatcha itching for now?
I said oh I'm ready for it come on bring it!

Once in a while we feel the ground we're standing up
Shakedown!

Hear now it's the time to shout out
Cause we know I'm about to spell it out for you
My god whatcha itching for now?
I said oh I'm ready for it come on bring it

Hear now it's the time to shout out
Cause we know I'm about to spell it out for you
My god whatcha itching for now?
I said oh I'm ready for it come on bring it!

Oh I'm ready for it, come on bring it (x4)
