You wanna run your mouth?
You better find something new to say
Cause kid, I heard it all before
You're such a rockstar
What's with that attitude?
Man, I had attitude,
Before I ever did good

Gotta get on your feet now (feet now)
Shut your mouth, get on your feet now, baby
We gotta move past the beef now (beef now)
Just move, just move
Cause at night, you can't see me
Smoke this dance floor! (one, two, three, four!)

[Chorus:]
I have the best taste in this whole damn place,
But I've had it up to here with the crowd,
I'm leaving now, let's go right now
And you've got the most grace in this whole damn
place,
If you wanna disappear, let's make a clear break right
now
Let's go right now

So just move,
Just move,
Just move like you gonna die soon
Just move,
Just move,
Just move like you gonna die soon

I am misunderstood, but I ain't always good,
I won't apologise, fuck Hollywood!
But yo, I'm kinda soft, I wish for underdogs
If I fall tomorrow, I still know where I came from

Gotta get on your feet now (feet now)
Shut your mouth, get on your feet now, baby
We gotta move past the beef now (beef now)
Just move, just move
Cause at night, you can't see me

At AK47! (four, five, six, seven!)

[Chorus:]

Have the best taste in this whole damn place,
But I've had it up to here with the crowd,
I'm leaving now, let's go right now
And you've got the most grace in this whole damn
place,
If you wanna disappear, let's make a clear break right
now
Let's go right now

So just move,
Just move,
Just move like you gonna die soon
Just move,
Just move,
Just move like you gonna die soon

Cause at night, you can't see me
(Even if you don't know me)
Tonight, you can't see me
(Yeah, I know you won't hate me)
I got no time if you don't know how to move,
Just wanna dance with you, don't wanna talk to you
Tonight, you can't see me
Smoke this dancefloor! (one, two, three, four!)

[Chorus:]

I have the best taste in this whole damn place,
But I've had it up to here with the crowd,
I'm leaving now, let's go right now
And you've got the most grace in this whole damn
place,
If you wanna disappear, let's make a clear break right
now
Let's go right now

So just move,
Just move,
Just move like you gonna die soon
Just move,
Just move,
Just move like you gonna die soon.
