do you know who i am??  
good, neither do i  
i got nothing to say  
but if you pay me, i can play the fool.

go on, believe, if it turns you on  
take what you need 'til your body's numb  
prostitution-is revolution  
you can hate me, after you pay me  
my submission is your addiction  
so just get out while you can.

do you remember  
when the only thing that mattered  
was taking time for the things you love?  
but now you've got to humour all these fools.

go on, believe, if it turns you on  
take what you need 'til your body's numb  
prostitution-is revolution  
you can hate me, after you pay me  
my submission is your addiction  
so just get out while you can.

if you need me i'm your man  
but you don't wanna see me mad  
Oh! No! we don't care!  
you're a pro and it's no surprise, yeah  
Oh! No! we don't care!

go on, believe, if it turns you on  
take what you need 'til your body's numb  
prostituton-is revolution  
you can hate me, after you pay me  
my submission is your addiction  
so just get out while you can.
