Don't take them faces at their value in a cynical town
Yeah can you smell the stare
I have no skill but I ___ then I turn it around

Just remember
I'm no cynic
You know I'm just getting bored
I'm no cynic, no, I've got a heart of gold
They say I'm cold cold cold,
Man you are so cold
I'm super sweet sealed with a kiss
Don't get offended if there's something you missed

I only show you what I want you to see
I've got my t-t-t-tongue in my cheek
And you see them laughing
(You see them laughing)
Don't follow them
'Cause they're not part of my joke
I always be just who you want me to be
And keep my t-t-tongue in my cheek
A hopeless romantic you'll never see
'Cause you're not in on the joke

I got my picture in the Beverly, my parents were proud
Hey kid, that's not a bad job, yeah
Next thing you know, peculiar faces start hanging
around
Dear lord, could you spare me?
I just got ___ to show you all
My ass is awesome, so smile

When your kissing it all

They say I'm cold cold cold,
Man, you are so cold
I'm super sweet sealed with a kiss
Call your professor if there's something you miss

I only show you what I want you to see
I've got my t-t-t-tongue in my cheek
And you see them laughing

(You see them laughing)
Don't follow them
'Cause they're not part of my joke
I'll always be just who you want me to be
And keep my t-t-tongue in my cheek
A hopeless romantic you'll never see
'Cause you're not in on the joke

No, you don't know
You don't know me
No, you don't know
You don't know me
No, you don't know

I only show you what I want you to see
I've got my tongue, tongue in my cheek
And you see them laughing
(You see them laughing)
Don't follow them
'Cause they're not part of my joke
I only be just who you want me to be
And keep my t-t-tongue in my cheek
You'll never see
'Cause you're not in on the joke
