(Open up)

well hello is this thing on?  
is anybody listening?  
a brand new day has begun  
the first thing that i want to do  
(is) make sure that you feel it too  
so i'm not the only one

Come on and let me off it's a brand new day  
open up a little happiness today  
so i can be someone new (so i can be someone new)  
come on and let me off to a better way  
open up a smile on another's face  
so i can feel something new

open up, open up some happiness  
open up, open up some happiness (feel something  
new)  
open up, open up some happiness  
open up, open up some happiness

oh excuse me  
ahem ahem let me clear my throat  
so you can hear clearly every word spoke  
today i woke up feeling lovely  
happiness over flowing know'n somebody loves me  
just think yesterday i was down and out  
now there's not a single thing for me to frown about  
and the same thing can happen to you  
smiling so hard my mouth is like a capital U

i want the sun to shine all the time,  
is that too much to ask?  
oh i wanna have some fun  
i want all my friends to come  
coz it's now or never  
learn the words and sing together  
Come on and let me off it's a brand new day  
open up a little happiness today  
so i can be someone new (so i can be someone new)  
come on and let me off to a better way

open up a smile on another's face  
so i can feel something new

your heart deserves your trust  
a choice made by all of us  
the sun will come back tomorrow  
there's a message in a bottle  
so come on i'll meet you there  
there's enough sunshine to share  
as long as you know the bridge between us is a rainbow

Come on and let me off it's a brand new day  
open up a little happiness today  
so i can be someone new (so i can be someone new)  
come on and let me off to a better way  
open up a smile on another's face  
so i can feel something new

open up, open up open happiness  
open up, open up open happiness (feel something new)  
open up, open up open happiness  
open up, open up open happiness  
open up, open up some happiness (ah come on ah  
come on)  
open up, open up open happiness  
open up, open up open happiness (yeah) (feel  
something  
new)  
open up, open up open happiness  
open up, open up open happiness yeah

(whistle fades out)
