Took from me all that I had
With my soul and spirit dead
Killing everything in me
What is one use to be free
Now to drive away the pain
I'll destroy all I disdain
I'll become what I despise
Living someone else's life
Don't back down
Don't ever back down
Don't ever turn around
My end has come
So now I come for you
Now obsession rules my mind
This commotion makes me blind
Searching out who ever runs
Or has stolen away my life
But I've already said
Don't ever back down
Don't ever turn around
My end has come
So I come for you

You trip on everything
I'll take your tired breath
And I can't feel anything
Now I live to see you to your death
A new heart with me
As might be just as quick
Through your tortured expense
'Cause I'll never back down
Don't ever back down
Don't ever turn around
My end has come
So now I come for you
Don't back down
I'll drive you down
I'll beat you to the ground
My end has come
So now I come for you
Don't back down
