"Love's Made A Fool Of You"

Visit "[Love's Made A Fool Of You](#)" on MotoLyrics.com

You know love makes a fool of you
You do anything it wants you to
You know love makes fools of men
But you don't care, gonna try again

Love can make you feel so good
When it goes like you think it should
Or it can make you cry at night
When your baby don't treat you right

When you're feeling sad and blue
You know love's made a fool of you

Time goes by, it's passing fast
You think true love has come at last
By and by you're gonna find
Crazy love has made you blind

When you're feeling sad and blue
You know love's made a fool of you

When you're feeling sad and blue
You know love's made a fool of you
When you're feeling sad and blue
You know love's made a fool of you

When you're feeling sad and blue
You know love's made a fool of you
When you're feeling sad and blue
You know love's made a fool of you

When you're feeling sad and blue
You know love's made a fool of you
