w/ Wariner Steve

We've been friends for a long, long time
You tell me your secrets, and I tell you mine
She's left you all alone, and you feel like no one cares
But I have never failed you, and I've always been there.

You tell your story, it sounds a bit like mine
It's the same old situation, it happens every time
Can't we see, oh maybe you and me is what's meant to be
Or do we disagree.

Chorus:

What if I told you, what if I said that I love you
How would you feel, what would you think, what would we do
Do we dare to cross that line, between your heart and mine
Or would I loose a friend, or find a love that would never end
What if I said.

She doesn't love you, oh it's plain to see
I can read between the lines of what you're telling me.
He doesn't hold you they way a woman should be held
How long can I go on keeping these feelings to myself.

Repeat Chorus

Bridge:

Oh, we've both had our share of loneliness
So who's to say that we can't have a little happiness.
And if I found that in you
It would make my dreams come true
Or would you walk away
Hear what I have to say.

So what if I told you, what if I said that I love you
How would you feel, what would you think, what would we do.
Oh, do we dare to cross that line between your heart

and mine

Oh, I've always wondered, from the day that we met

What if I said, what if I said, ooo ooo ooo what if we
said.
