Eyes, or kind  
Oh, it's fate, fate  
That copper[unverified]  
Shoulder

Fate, a shoulder  
Taken till every hourglass  
You ever released my dear heart  
Taken till every wry shakes  
Sad, depends on my lie shakes

Dear heart  
Dear heart  
Dear heart  
Dear heart

Taken till every hourglass  
You ever released my dear heart  
Taken till every wry shakes  
Sad, depends on my lie shakes

Taken till every fake glance  
You ever released my dear heart  
Every wink still can't see him  
Tickled pink like a muse

Dear heart  
Dear heart  
Dear heart  
Dear heart

Taken till every fake glance  
You ever released my dear heart  
Every wink still can't see him  
Tickled pink like a muse

Dear heart  
Dear heart  
Dear heart  
Dear heart
