Echo fell in love with the handsome narcissus
Narcissus struggles who heard walking
It was the nearest to perfection

Is anyone here, here, here?
Come, come, I will beg you
Before I give you power over me
I give you power over me

And that remains her fate, always her voice echoes
And that remains her fate, always her voice echoes
Still repeating only what others have said
Still repeating only what others have said

Nari cuss we both are ugly
For I dreamt for him to find, hold
A lovely face in the reflected image

Construed by the futile
Befallen to have his affection
It turned her so so slowly wasted
I know you didn't come to me to lay here

And that remains her fate, always her voice echoes
And that remains her fate, always her voice echoes
Still repeating only what others have said
Still repeating only what others have said

And that remains her fate, always her voice echoes
And that remains her fate, always her voice echoes
Still repeating only what others have said
Still repeating only what others have said

And after that she hoped to come as he said
He's found it funny, they all want to piss on her
And she repeated the same words to them

And echo's flesh has always start all again
And she bows down to starve to death
Oh, but she isn't thinking this before sinking

Is anyone here, here, here?

Come, come, I will die
Before I give you power over me
I give you power over me
