Two different fates
My love paramour ooze out and away
Two different fates
My love paramour ooze out and away

Two different fates
They fig up my love ooze out and away
Two different fates
My love paramour ooze out and away one how

Love if it's swallowed for pity
Must ooze out and away one how

Love if it's swallowed for pity
Must ooze out and away one how
Two different fates of my love paramour
Ooze out and away one how

Love if it's swallowed for pity
Must ooze out and away one how
Two different fates of my love paramour
Ooze out and away one how

Two different fates
My love paramour ooze out and away one how
