Walking among us, a redneck plague. Yeah!  
Dangerous teeth, small balls bite you.  
Weapons all ready for a new game shot.  
Here it comes another trash zone.

Exterminate! Creeps from outhur space.  
Erradicate! Until the end of earth. Control them E.1

Duplicated like a virus connection.  
Armor yourself for the next generation.

How many have suddenly fell, I can see black fashion  
victims  
Into critters tender embrace, I can see black fashion  
victims.  
As they succumb to their sins? Hundreds of wound  
people  
Tribe noise hits all around. Hundreds of wound people.  
E.2

Take a look around looking to wound. Different  
toughness for a clown. Hitting critters with no time  
which is yours which is mine.  
Fuzzy balls rolling down town. Wild hunger theres no  
safe place.

Cradle notice us that they would arrive. Hoards of  
eponymous beasts. In a bid to stop the mayhem, the  
alien world send two bounty hunters to destroy them.
